## 19th FIAP Nature Biennial – Oman 2018

Art and Nature The fundamentals of Nature photography. The beauty of natural landscapes, fauna and flora in their most aesthetic aspects are captured by photographers in endless opportunities. The FIAP Nature Biennial is one of the best examples of this. The images published here speak for themselves.

I want to thank the Photographic Society of Oman for the commitment to organize this biennial, the jury in its difficult task of evaluating the images and all the federations that have sent their works. This edition of the Nature Biennial has had the largest participation in more than 20 years. 35 countries have taken part in this event.

I especially want to mention the winners of the World Cups: Italy in the paper section with a formidable collection of birds and the Russian Federation in the digital section with an incredible collection of landscapes.

The Russian Federation has been awarded the Great Prize of Nature "Trophy Odette Bretscher" 2018 that awards the best performance in both sections.

Congratulations to all of them!

**Director of the Biennial Service**

Art et Nature. Les principes fondamentaux de la photographie de la nature. La beauté des paysages naturels, la faune et la flore dans leurs aspects les plus esthétiques sont capturés par les photographes dans des occasions infinies. La Biennale de la Nature FIAP en est l'un des meilleurs exemples. Les images publiées ici parlent d'elles-mêmes.

Je tiens à remercier la Société Photographique d'Oman pour l'engagement d'organiser cette biennale, le jury dans sa difficile tâche d'évaluer les images et toutes les fédérations qui ont envoyé leurs œuvres. Cette édition de la Biennale de la Nature a eu la plus grande participation depuis plus de 20 ans. 35 pays ont participé à cet événement.

Je tiens à mentionner en particulier les gagnants des Coupes du Monde: l'Italie dans la section papier avec une formidable collection d'oiseaux et la Fédération de la Russie dans la section numérique avec une incroyable collection de paysages.

La Fédération de la Russie a reçu le Grand Prix de la Nature «Trophée Odette Bretscher» 2018 qui récompense les meilleures performances dans les deux sections.

Félicitations à tous!

**Directeur du Service des Biennales**

Le spectre de la lumière capture l'essence et la beauté de la nature et raconte une histoire des paysages extraordinaires et de la faune à travers les photos.

Ces photographies sont des contes jamais racontés qui attirent immédiatement les yeux pour inspirer les photographes.

Au travers de la Biennale Nature et Paysages, les membres FIAP des associations officielles de photographies aspirent à mettre en valeur la beauté de notre Mère Nature et son infinie magie, ainsi qu'à les documenter pour les générations à venir.

Nous sommes honorés d'accueillir et d'organiser la Biennale Nature et Paysages 2018 au Sultanat d'Oman.

Nous espérons partager avec vous la beauté de la nature et vous faire naviguer dans sa lumière enchanteresse.
